21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

(Observation/Suggestion may also be a review of any course content of the syllabus/ Content you would have wished to learn).

- 1 Good network connectivity, learning about new technologies and developments.
- 2 Should give the proper platform to attend the class and provide proper notes on Moodle
- 3 The faculties are very supportive and they are continuously encourage us to learn new things.
- 4 All content of learning subject are satisfactory
- 5 Give special attention towards weak students
- 6 Wished to have a programming language.
- 7 1)Improve presentation
  - 2)Better notes
- 8 Because of online teaching number of lecture per day should be reduced. So that Students don't lose their interests.
- I had observed that the practicals are going so good that we are interacting online with teachers and they are doing there job best for us...so thank you so much.
  - If institute could find a way for doing offline practicals, that would be helpful.
- My class has never been to any field visit yet. Why is that?
- Attend classes on online platform is not easy. There are mostly voice issues and much more. Especially during bad weather the connectivity is low.
- Course should be updated.
- Information regarding new technology should be shared
- 12 Some more examples and different type of them will help and also extra classes regarding some topics.
- 1. More interaction with students
- 2. Skill learning classes
- 14 The only suggestion I can give is focus on learning not of theory.
