21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.
(Observation/Suggestion may also be a review of any course content of the syllabus/ Content you would have wished to learn).
1	1. Any Subject lecturer must not be changed in midway through the course. 2. Whenever possible, practicals should be taken offline.
2	Whenever possible pratical should be taken offline
3	Wished to learn more languages...
4	We should emphasize on practical learning
5	Make course expectations clear and based on learning outcomes.
6	More efficiency. More practical based learning. Less Theory.
7	I think they have to look towards students weakness and there mental state and look around them and help them otherwise academic wise it's really great
8	In online lectures sometimes we are not able to understand what they are teaching us. Some teachers just show the ppt, read the ppt and that's it. Teachers should tell us which company asks what type ques and which topic we should more prepare for interview they should take an separate class for interview questions on electronics and telecommunication. Also they should provide us some good internships. Teacher should ask the students how they are preparing for placement or what they should do to get placed in a good companies. It will boost up the confidence of students and also they will feel motivated. Thank you.
9	Provide internships.
10	Try to reach every student and ask for their doubts.
11	They focus on more practical learning
12	Teachers should speak in english with students not in marathi
