96	Response 96	course should complete in proper way not like catching a running train institute can look over the time table or schedule of lectures, just fix them properly, everyone is king of their own wish. can we just know what we are exactly leaning in the bank management subject, yes sir is having good knowledge and experience but we need some more clarity about what we are exactly learning. sales management and distribution, we got almost 90 pages of ppt bt thats not the problem but if the teacher doesnt feel some part of it not necessary to teach then why they are adding into it. also need to improve teaching quality or just go with the good practical and undertandable examples.
